—————§ § §—————

OUR GREEN PLANTS are grown so as to give the maximum of results equal or superior to root stock. This is only accomplished by the selection of healthy vigorous roots benched in a moderate heat that will enable us to take stocky base cuttings. Only a reasonable number of cuttings are taken and none used that are spindly. After cuttings are rooted and potted and begin to grow they are moved to cooler quarters and later shifted to larger pots; at this stage small tubers are beginning to form, assuring that clumps will be obtained at digging time; the plants are later hardened off in "outside quarters" so as to withstand shipping and be in condition for planting out.

OUR 1939 INTRODUCTIONS

Premier's Exquisite— (As described at Georgia Test Gardens where it received a Certificate of Merit.) A beautiful incurved pink cactus, blooms, orchid shading to rose pink at center, 7 in. x 5 in., well developed centers, held on long, graceful stems with slight droop, 5 in. to 8 in. above the upper leaves, rich in color tone and distinctively pink; very prolific, plants bearing large number of blooms; plants, vigorous, tallest growing in the test, able to withstand adverse seasonal conditions; foliage, dark green, thick and abundant.

SCORED 83 AT EAST LANSING, MICHIGAN.

"And exquisite it is. Dainty in formation, lovely in color, of good size, high out of the foliage on slender rigid canes from a plant that shows excellent growth habits. It certainly calls for admiration." — Mr. R. G. Huey, Supt. Display Gardens, Ewing, Kentucky.

ROOTS 7.50 PLANTS 2.50

Premier's Winsome— The most attractive pink I.D. since Kathleen Norris and easy to grow, giving massive blooms in great abundance, will grow naturally to 11 x 6 inches, stems slender but very strong, foliage heavy, leathery, resistant to insects and mildew. Described at East Lansing, Michigan Trial Gardens, where it received a Certificate of Merit with the score of 85.2 E. Color described as "Basic color white, suffused with mallow pink." (The color is made by many lines of mallow pink heavily suffusing a white base.) This may be a border line dahlia but it was definitely informal here. Medium tall.

ROOTS \$10.00 NET PLANTS \$5.00

"It really is about the nicest thing I have ever had in my garden."—Mr. F. V. Veirs, Canton, Ohio.

"Your 'Winsome' is a knockout in every respect and I intend to replace all my pinks with that. In my garden it was gorgeous, nice form, substance and plenty of size. Everybody that saw it took down the name."—Mr. Norman Lefkovits, Bessemer, Alabama.

"I consider 'Winsome' to be the best new dahlia I have seen this year on any of my visits to the shows and dahlia gardens."—Mr. George R. Currie, Sheboygan, Wisconsin.

"In my opinion, it has more vigor, is more prolific and produces larger blooms than any variety now available in the Pink Informal Class."—Mr. H. L. Stewart, Floral Park, N. Y.

"Your 'Winsome' was broken down by the hurricane, but it recovered quickly and in a very short time it was blooming with seven giant flowers. Was offered 50 cents each for the blooms."—Mr. Wm. Meshirer, Prop. Queens Dahlia Gardens, Flushing, L. I., New York.

"'Winsome' is one of the best I have seen in a long time."—Mr. R. W. Webb, Scranton, Pennsylvania.

"'Premier's Winsome' showed excellent plant growth, tall, upright, inclined to make a number of blooms at the same time, and on canes of great length. Sun had no detrimental effect on its color and the blooms were also free from tarnishbug and cucumber beetle damage, something rather notable during a season of heavy infestation. Visitors fancied 'Winsome' as strongly as 'Premier's Exquisite'."—Mr. R.G. Huey, Ewing, Ky.

"I am glad to know that 'Premier's Winsome' is from Rockleigh's famous seed, because I consider it a most dainty and beautiful dahlia."—Mr. H. Lodge, La Mesa, California.
